Thanks, Tala. Got it and moving it forward.

(I'll also talk to Mary offline about putting a finer point on these sorts of questions before they come our way in the future)

I don't really understand what the 'ask' was on this but added two additional comments

Tala – This supersedes the earlier version of the Shaheen TA that I sent earlier today. OW/OCSPP have sent a new version, attached – and are looking for assistance this morning in reconciling our OCSPP and ORD's TA on page 3. -a

Hi. Please see Greg's question on reconciling the definition after integrating our comments. Please let me know OPPT's response and I will run it by Michal. I know OW was trying to wrap this up by Friday so it would be great to have OPPT's feedback this morning if possible. Thanks.

Attached is the latest on the shared drive. I added comment bubbles to represent your TA. I am trying to reconcile your TA and ORD's TA on page 3. I could use your help with that. Please see the very busy section on page 3 related to the definitions and let me know if you have any additional input.

Hi Greg. Is this still the latest draft attached that we were looking at? I will circle back on Monday with our shop to confirm on the section 3 definitions.

Hi. In addition to the OPPT comments I shared earlier below is additional input from Michal who has more insight on the drafters intent— some of there refer to others' comments. I will get back on your question on whether there is a preferred definition.

Resending with a non-SharePoint file.

Alison/Susanna,

Please see the request for OCSPP review below/attached. Greg Spraul is asking for feedback by COB tomorrow. If you can provide any feedback by noon tomorrow, that would give Mary time to run by Michal tomorrow.

Thanks,  
Jonah

**Subject:** Last call - due COB 6/10 - Consolidated TA doc for Sen. Shaheen Emerging Contaminants/PFAS bill

All,

Thank you for all of your hard work on this TA! This is the last call before I send this TA to OW's DAA for approval. Please provide any additional edits to the shared file by COB tomorrow.

OCSPP - I am adding you to this group because of your work on PFAS definition provisions in other TA work products. Please look at how PFAS are defined on page 3 and let us know if you have any TA input on the drafter's construct.

OLEM – please double check that you are ok with ORD's comment on Page 3 in turquoise highlight.

OWM/OGWDW – This version is basically the same as the one Elizabeth sent around on June 7. I fixed a few typos.

OCIR – you have an early preview of this consolidated TA, please let me know if you have any concerns.

Attached is the combined OGWDW-OWM-OLEM TA doc. OWM's (WID) is approved by Andrew and OGWDW's by Jennifer. OLEM and ORD's TA has been cleared by their respective chains and is shown here for convenience. (OGWDW and OWM have reconciled comments with OLEM where needed based on discussion with Melanie and Stiven.)

Much of OGWDW's TA is embedded in the SDWA language version that Matt provided below the draft bill.

Thanking everyone and LMK if questions.
